Dr. Hunter Issues a Signed Statement at Frankfort.

INTEREST GROWING GREATLY.

Markets Excited In This Country and In London.

DISASTROUS SNOWSLIDES IN THE WEST.

HUNTER 53.
BLACKBURN 18.
MARTIN 12.
BOYLE 5.
STONE 1.
Necessary to a choice 55. No election—Hunter still two short.

Frankfort, April 20.—There is a considerably increased interest in the Senatorial election since Dr. Hunter this morning issued a signed statement declaring his intention to withdraw from the race this week. The Blackburn following are exceedingly anxious to keep Dr. Hunter on the track for fear the elements of the party may be united on some other man.

Every effort is making by all parties to have every member present. Senator Ogilvie is here, having been brought by special train. Senator-elect Hager is also here.

An effort will be made to seat Mr. Hager and should it succeed there will be sixty-nine Republicans, opposed by the same number of all other parties.

The ballot today resulted in the usual shortage of two votes for Dr. Hunter. In detail the vote was Hunter 53; Blackburn 18; Martin 12; Boyle 5; Stone 1. Required to elect 55. No choice. Mr. Stone was absent and not present. Mr. Stone was absent and not present. Mr. Stone was absent and not present.

EXCITED MARKET.

The Chicago Board of Trade Witnesses a Great Sea Saw.

Chicago, April 20.—The most excited market that has been witnessed in this city for years was seen on 'change today. The market fluctuations covered a range of several cents and so quickly did they come and go that fortunes were made and unmade in a twinkling. The most inveterate gambler could not wish for a better field for his guess work.

London, April 20.—The stock market has been exceedingly excited today. There is a disposition to decline in a number of European stocks and Greek stocks fell four cents.

SNOW SLIDES.

Three in South Dakota and Two in Utah.

Richton, S. D. Apr. 20.—The approach of winter weather has caused the partial melting of ice and snow, which has resulted in a number of slides, three of which have occurred in this state and two in Utah. Six deaths resulted from the slides in this state so far as known and five in Utah.

REGULAR ELECTION

In Progress at Metropolis Today.

Mayor, Judge, Council and All to Be Elected.

Today the regular city election is in progress at Metropolis, Ill., and there is great enthusiasm. A mayor, city council and the entire city ticket will be elected. The Republicans will, as usual, according to reports, carry everything.

VIOLET RECEPTION

By the Young Ladies of the Catholic Church.

The violet reception to be given at the Harbour building on Broadway by the young ladies of the Catholic church this evening should not be forgotten. The arrangements are such as to guarantee an evening of rare pleasure to those who attend. The senses of sight, hearing and taste will be eloquently appealed to. There will be an abundance of beautiful flowers, not to mention beautiful girls. Music by the opera house orchestra and a table set with all the delicacies of the season.

The cause is a worthy one, the proceeds to be applied to the church building fund. Don't miss it.

20,000 SLAIN.

Terrible Carnage in the Greco-Turkish War.

TURKS THE HEAVIEST LOSERS.

Greeks Recovering Their Positions Lost in First Battles.

GREEK STEAMER SUNK BY TORPEDO.

New York, April 20.—The carnage on the Greek frontier is said to be something fearful. Fighting has been almost constant and Greek advances received here today estimate the number killed to date at 20,000.

London, April 19.—9 p. m.—Gen. Simitzis, ex-Minister of War, is in command of 14,000 Greeks at Revena, not far from Thessalonica, north-west of Larissa. At this point Edhem Pasha, closely pressed, was nearly taken prisoner. His plan was to force the pass of Revena, to enter the plain of Larissa, to cut off the retreat of the Greek army with his cavalry, and thus take Larissa without resistance.

But this plan was defeated. Gen. Demopoulos, at the head of one Greek division, forced the Turkish line at Bouglaz, close to Tyrnovo and Gen. Macromedoni broke through at Kenikos. The two generals united their troops near Damasi.

The news of his success at Revena, and of the imminent fall of Prevesa has changed the dismay caused at Athens by the loss of Milona into the wildest rejoicing. The latest advices tonight are that the Greek troops are advancing to re-occupy their positions at Milona and at Trizovani, the latter of which, it is alleged, was abandoned owing to a misunderstanding by the general in command who interpreted as an order of retreat what was really intended as an order of advance.

Capt. Tugard, who was wounded at Grizovani, shot himself in order to avoid falling into the hands of the Turks. The Greeks report that the Turks lost 7,000 killed and wounded at Revena, but this estimate is probably excessive. The Greek engineers constructed a bridge at Pachyskalos to enable their troops to cross the river. It is stated that the Turkish forces attacking Revena numbered more than 10,000 men.

As details come in it becomes more and more apparent that the fighting in the Molomo pass was of the most stubborn and savage character. The Turks fought like devils, and the Greeks resisted with the spirit of their ancestors. The most inexplicable fact in connection with the whole engagement is the comparatively small number of killed. All the special correspondents agree to this. The Turks seem to have fired as wildly with their rifles at Molomo pass as they did at Arta, where the fighting consisted of an artillery contest between the rival batteries on each side of the river, lasting about four hours in the afternoon. There they fired only one out of five shots with any effect, and their batteries were soon silenced by the Greeks, whose marksmanship was very much superior. The Turkish losses at Arta are believed to have been very heavy. On the Greek side there was not a man killed.

Larissa, April 19, 5 p. m.—The Greeks have defeated the Turks at Revena and two Greek brigades have entered Turkish territory in different directions and penetrated to Damasi, northeast of Zarkos. Another division invading to flank the Turks, who are retreating in disorder. Heavy fighting is in progress at Grizovani. It has been going on since noon. The Greeks are trying to recapture the place.

Athens, April 20, 1 a. m.—The Greeks have occupied several strategic positions around Damasi including Viglia. Three thousand armed peasants have joined the troops. It is alleged that 22,000 Turks attacked Revena.

GREEK STEAMER SUNK.

A General Panic Prevails at Solonica.

Solonica, April 19.—A Turkish torpedo boat has sunk the Greek steamer Athens in the Gulf of Solonica. On board were insurgents and members of various secret societies. A general panic prevails here. All vessels are prohibited from leaving the gulf. The Turks have seized the Greek steamer Kephallion.

The "Black Cats" have a meeting at the Y. M. C. A. building tonight to arrange the details of their campaign. Capt. Wallace wishes to meet all of his side tonight.

AMERICAN INTEREST

Will Be Protected in the Mediterranean.

Washington, April 20.—The President is taking an active interest in the struggle between the Greeks and the Turks and is being constantly advised by the department of state as to the latest developments in the war. He wishes to insure the adoption of all proper and usual precautions for the protection of all American interests in the Mediterranean. Secretary Sherman came over to the White House this afternoon and the President immediately left all other business to confer with his Premier on the subject. Secretary Sherman previously had a long talk with Mr. Angell, who being about to start for Turkey the latter part of May, is naturally deeply concerned in the developments in that turbulent quarter. With the fleet of American warships now off the Turkish shore it is felt that all that prudence could prescribe has been done. It may be that within a short time some question will arise that will involve action of some sort on our part, arising, perhaps, from attempts by both Turks and Greeks to blockade each other's ports, which possibly might interfere with the introduction of some American products, but at present this is a remote contingency.

BRIDGE CONTRACTS.

Fiscal Court Committee Lets Two.

The Cincinnati Bracket Bridge Company Successful.

Justices Hartley, Dunaway and Winchester, of the fiscal court, this afternoon let two important bridge contracts.

Mr. W. W. Miles, superintendent of erection of the Cincinnati Bracket Bridge Company, was the successful bidder. The contract for constructing a steel bridge over Morrow's Ford, about six miles from the city on the Broadway road, was let for \$625. The contract for erecting a bridge over Massie Creek at Wilmington, seven miles from the city, was let for \$627.

COUNTY SCHOOLS.

They Are Now All Dismissed Until Fall.

Last One Closed Last Friday Afternoon at Milan.

Supt. Rouse, of the county schools, reports that all the various schools throughout the county have closed until fall.

That of Prof. W. A. Edwards, at Milan, was the last, being dismissed Friday with appropriate exercises. The close of the county schools, Supt. Rouse says, was later this year than usual, owing to illness among the teachers and the erection of new buildings.

Some of them will resume as early as August, but the majority will not begin until the following month.

A WATERY GRAVE.

Colored Man Drowned While After a Horse.

MET HIS FATE IN BACKWATER.

Thomas Howard Dies While Working to Earn \$5.—Body Recovered.

CORONER NANCE HOLDS AN INQUEST.

John Howard, colored, was drowned on the farm of Mr. Elsey Jones, in the Clark's river vicinity, while attempting to disentangle a horse belonging to Mr. Jones from some drift and underbrush in the back water late yesterday afternoon. The horse had attempted to swim across the back water and became trapped in the floating bushes. Howard offered to extricate him for \$5, which proposition the owner accepted. But before he reached the animal the latter disengaged himself and swam out, leaving the would-be rescuer in several feet of icy water. He started to swim back to bank, but was seized by cramps and drowned. Only a short time after the drowning the body was recovered, Howard having been seen when he sank by several, who were unable to render him any assistance.

This forenoon Coroner Nance went out and held an inquest over the remains, the evidence and verdict being in accordance with the above.

Howard was about 25 years of age and lived near Stiles. The remains were buried this afternoon.

TWO FRANCHISES SOLD.

Mayor Yeiser Sells the Steam Heating Franchise.

Also the Right of Way Street Railway Franchise Down Twelfth Street.

Mayor Yeiser yesterday sold to the highest bidder two important franchises. The steam heating franchise, which gives to the purchaser thereof the right to construct, maintain and operate a system of steam heating pipes, was sold to Mr. A. E. Einstein, of the Paducah Electric Company, for \$150.

The right to construct and operate a street railway line down Twelfth street, from Trimble to Rottergry's, instead of over the route now used by the People's Line, which franchise was asked by the People's Company, was sold to Mr. Einstein for \$10, the company relinquishing its right of way over the streets now used on that portion of its line desired to be changed.

CHARGE OF ARSON

Preferred Against George McElyea, of Metropolis.

ARRESTED HERE THIS MORNING.

Is Indicted With Dave Peters for Setting Fire to the Latter's Grocery.

WENT BACK WITHOUT A REQUISITION.

George McElyea, a young man of Metropolis, was arrested this morning about 2 o'clock by Officers Frank Orr and Jeff Harburt, on a warrant sworn out by Illinois authorities charging him with arson. He was found at the home of Violet Wiley, on North Tenth street, and claims that the woman is a half-sister.

Deputy Sheriff John W. Evers telegraphed Marshal Collins yesterday forenoon from Metropolis to arrest young McElyea, who could not be located until last night.

The officer arrived in the afternoon and swore out a warrant against the young man charging him with arson and being a fugitive from justice. He was arrested as detailed above and committed to the lockup, where he remained until this morning.

He was taken before Judge Sanders, evinced a desire to return to Metropolis without a requisition, and was turned over to the officer. He claims to be ignorant as to the charge against him, and in conversation with a St. Louis reporter this morning expressed himself as being at a loss to know whose house he is charged with burning, but says he is innocent and can easily establish the fact.

Deputy Sheriff Evers declined to make any statement relative to the case, refusing to divulge the name of owner of the house alleged to have been burned, on the plea that there were accomplices in the crime who are yet to be caught.

From other persons of Metropolis, however, it was learned that young McElyea was jointly indicted with Dave Peters for setting fire to the latter's grocery in Metropolis last winter.

A brief history of the case was given in the Sun a few days ago in connection with Peter's suit against the insurance company for the collection of damages.

A man named George Williams claimed that Peter gave him \$25 to burn the house and promised him \$25 more when the job was completed. Williams bought a shanty boat with the money, and went down the river without doing as he agreed, but returned to testify. The case of Peter's against the insurance company to force a payment of loss has not been decided.

The grand jury, which is now in session at Metropolis, at once took the matter under investigation, and it is understood, in addition to indicting Peters and young McElyea for arson, there is yet another young man who has not been apprehended. The indictment was returned yesterday.

McElyea, no doubt anticipating something of the kind, left Metropolis Sunday and crossed the river. He then walked to Paducah, arriving yesterday.

After telegraphing Chief Singery last night, a deputy sheriff of Illinois went out in the county with a deputy sheriff of McCracken, but they did not find the fugitive, it falling to the lot of Officers Orr and Harburt to get him. He left on the 11 o'clock boat for Metropolis in charge of the officer, and did not appear to feel any alarm.

FERRY BOAT.

Will Soon Be Able to Resume Her Upper Landing Trips.

The ferryboat Bettie Owen will be able to resume her regular daily trips to the Illinois shore opposite the city when the river has fallen three feet more. The farmers of Illinois and the merchants and traders of Paducah will have a resumption of these trips with joy, as it will mean an increase in trade.

W. C. T. U. MEETING.

"Sabbath Observance" the Subject for Consideration Tomorrow.

The W. C. T. U. will consider at its meeting Wednesday, April 1, "Sabbath Observance."

This is a regular department of the organization under the National Superintendent, Mrs. Varilla F. Tabor, of New Jersey.

The aim of this department is to educate and arouse the public intellect and conscience through leaflets, press articles, petitions and all other available means to the religious, scientific and other reasons for Sabbath observance, especially raising a higher practical standard among professed Christians and testing our own lives by the word of God.

Also to secure and maintain good Sabbath laws and usages, thus protecting all in their right to a civil rest day and fostering morality.

The Paducah local union will work in harmony with the Ministerial Association in endeavoring to enforce local Sabbath observance.

The influence of the mother on her own home circle and the visitor within her gates, will give the right direction to church attendance and avoidance of public amusements upon the day of rest.

TUESDAY, APRIL 20, 1897.

ITALIANS are flocking to the support of the Greek standard by the hundred. There is not much kinship between the Greeks and the Romans, but there is a common hatred of the Turk among the masses.

GOLD mining properties of South Africa have declined in value in eighteen months from \$600,000,000 to a little over \$200,000,000. The Australian mines have also lost in value, while the American mines have steadily gained.

It was a sorry Easter Sunday on the Greco-Turkish frontier. The day of the riser Lord, the Prince of Peace was one of blood and carnage. Perhaps it was appropriate that the unspeakable Turk should break forth in rapine and murder on a Christian nation on this of all other days.

MR. SEWELL, of Maine, who was half the Populic candidate for Vice President, looks upon the spring elections as having no significance from the standpoint of national politics. He adds that the people of the East are disposed to give the administration of President McKinley a fair trial before condemning it.

THAT Turkey and Greece should have afflicted the world with accounts of battles and bloodshed before they gave some lessons to a long suffering reading public in the pronunciation of their proper names was an unpardonable oversight. The character of her names interferes materially with the sympathy that would otherwise be extended to little Greece.

THE Spanish commandant in the Philippine Islands reports that the insurrection there is practically suppressed, we are told, and that there are but 27,000 in revolt, and of these 20,000, are "in the act of surrendering," yet we are informed that the 40,000 troops that are to be withdrawn from Cuba will be sent to the Philippines. Somehow the stories don't seem to blend harmoniously. But then the same is true of many of the Spanish stories recently told.

It is stated the Republican Senators will hold a caucus and settle all differences on the tariff bill among themselves before it is presented to the Senate. This course is dictated by the apparent necessity of united action on the part of the Republicans of the Senate before the bill can have a reasonable show of passing. As the Senate now stands, with vacancies from at least two Republican states, the margin for protection is very narrow. It must draw one or two votes, at least, from the silver Republicans or Populists unless, as is possible, one or more Democrats shall be found ready to support the bill. The consideration of the bill by the Republicans before its introduction will also place it in position to be more promptly enacted.

BEFORE the Illinois legislature providing for an extension of all street railroad franchises for fifty years and providing for the payment into the city treasury by every road of from one to three per cent. of the gross earnings, according to the population of the cities in which are located. In cities of 200,000, after five years the payment is to be five per cent., and after twenty years seven per cent. Provision is also made for street railroad commission, which will have an oversight of all street railways and whose consent must first be obtained before any city council can grant a franchise, and all franchises must be sold to the highest bidder. Such a law certainly has many good points, and would have been worth millions to the cities of the state had it been in force before the large systems were built.

THE naval department has a bill of \$138,000 presented by the Cramps for repairs to the cruiser Brooklyn, made necessary by an accident that occurred to her just after she went into commission and before she had gone to sea. She was built by the Cramps and on learning of the accident they proposed to Secretary Herbert to make the repairs at actual cost of material and labor on account of a professed personal interest in the vessel and a desire to see her at sea in good shape. It was estimated by naval experts the cost of the repairs would be \$8,000 or \$10,000 and the bill of \$138,000 came therefore as a great surprise. It is pointed out that the firm is constructing two torpedo boats with an aggregate displacement of 123 tons for \$128,000, less than their bill for the "slight" repairs made on the Brooklyn by \$10,000. It is naturally looked upon as an effort to "gouge" the government.

It seems probable Baron Courcel, the eminent French diplomat, at present Ambassador to England, will be selected as the fifth arbitrator in the Venezuelan boundary dispute. On the part of the American Republic Chief Justice Fuller and Justice Brewer, of the United States Supreme Court, have been chosen. Baron Courcel and Sir Richard Henn Collins represent England. The court will meet in Paris in the summer of 1898, the preceding time being required for the exchange of pleadings. In the meantime, and within three months of the exchange of ratifications, the final arbitrator must be chosen. As the treaty is ratified by both governments, the formal exchange of ratifications will follow at an early day, either in Washington or London, and negotiations toward naming the fifth arbitrator will immediately follow in order that an agreement may be reached within the three months prescribed.

A BETTER WAY.

On the day of the "great Carson battle" an affair took place in France which was much more chivalric and esthetic than the pounding match at Nevada's capital. It was a furious duel with swords between two masters of the art of fencing, who displayed marvelous skill in fighting hard without hurting each other. The combatants were Chevalier Pini, an Italian fencing master, and M. Thomeguex, a Parisian swordsman of great renown. The story of this great combat is told in full by the New York "Sun" correspondent with great circumstantiality and detail. Mark the wonderful self control and politeness that characterized this combat. All in all we believe it was a much nicer affair than our prize fight. The story of the fight is told as follows:

The grave responsibility of directing the combat, or in other words, acting as referee, fell upon M. Georges Breitmayr. When the swords were crossed and the usual "Go, gentlemen!" was pronounced, the fight began. M. Thomeguex, in a threatening style, held his weapon well in line, and, advancing, made several feints for an opening. M. Pini remained on the defensive, evidently watching for a chance for a deadly riposte, but fortune did not favor him. Nevertheless, in this bout he disarmed his adversary. He saluted; his salute was returned. Evidently the men were evenly matched. The second bout was without incident, beyond giving an exhibition of splendid swordsmanship.

In the third bout, Thomeguex, fancying that he had wounded Pini in the arm, lowered his weapon. The surgeons rushed in and found that Pini was not touched.

The fourth bout was furious. With lightning rapidity Pini drove his weapon at Thomeguex's chest, but a vigorous parry sent it to the ground. The point landed on a stone. The sword was bent like a reed and rendered worthless. Another sword was handed to the Italian professor, and the fifth bout was without incident. The combatants were winded.

In the sixth bout the fight was stopped by the seconds, who believed that M. Pini was wounded in the arm. He was unhurt.

The duellists now faced each other for the seventh bout. They bounded at each other, lunging with wonderful force and parrying with equal skill, until the point of Pini's weapon reached the guard of Thomeguex's, and, for the second time, the former's weapon was bent.

After a little time it was repaired, and the eighth bout was begun with furious attacks on the part of Thomeguex. Pini gave ground, watching for a riposte. Apparently his chance presented itself, and he sent in a terrific thrust at Thomeguex's breast. Some of the spectators shuddered, and many of them thought the man had been run through or, at least, badly wounded, but a parry, that is described as "something marvelous" by the experts who saw it, saved him, and, when the seconds and surgeons rushed in, they found him unhurt and smiling.

In the ninth bout M. Thomeguex was wounded in the right cheek. He declared that it was merely a scratch and insisted upon going on, but the surgeons insisted that the internal hemorrhage interfered with his breathing to such a degree that he was in a condition of inferiority. M. Breitmayr then stopped the combat.

The Chevalier Pini advanced toward M. Thomeguex and offered him his hand. The latter grasped it, muttered some complimentary remarks, and the two men left the dueling ground fast friends.

SPANISH OUTRAGES.

Fleeting Destruction of Life in Revenge for Defeats.

Havana, via Key West, Fla., April 17.—San Maria, a small town in the southeastern portion of this province, near Rosario, was totally destroyed by the Spanish guerrillas Tuesday night. On the 11th a Cuban force camped near there and procured water for their horses from the public well of the place. No particular aid or welcome was extended to them, but this slight favor was reported to the Spanish and they vowed that the place should be destroyed. Capt. Sartillo, with his band of Spanish guerrillas, raided the place Tuesday. The leading men, some thirty-five in number, were arrested and brought before him. He then questioned them sharply as to why they gave the insurgents aid. He was told the circumstances, but he refused to believe them, and stated that the town helped the Cuban cause and therefore it should be destroyed at once.

The women of the place came before him and implored him to not destroy their property. He insulted them, and told them that he would give them five minutes in which to remove their possessions from the houses. Before the five minutes had elapsed, however, his soldiers began pillaging the houses and setting fire to them. Whenever they found any of the owners taking out anything which they fancied, the soldiers knocked them down and took the articles away from them. In less than two hours the place was a mass of ruins. There were about 200 inhabitants there with not a roof to cover them. Many of them were women and children. The guerrilla captain selected fifteen men and had them shot in the public square as an "object lesson." The men were then forced to leave the place, and go out in the open country under threat of being killed at once if they disobeyed. When the women and children started to follow they were stopped. There were nearly seventy-five women and girls who were kept in one building, which the guerrillas left standing, for twenty-four hours, exposed to cruel treatment by the guerrillas and officers. The guerrillas left the following night, after burning that building. It is also reported that eight or ten of the women were killed afterward. This can not be verified.

A courier who came in from near Santa Clara yesterday reports that while passing through a small railroad station about twenty miles outside the city limits he came upon an open trench containing twenty-five bodies of women and children. He recognized some of them as being refugees who had been at Matanzas, but who had left there to go into the interior for food. From his report it is understood that they were surprised by a guerrilla force and cut down. A Spanish gunboat while cruising near Carabau, north coast of Santa Clara, was fired upon from the shores by Cuban sharpshooters and five men were killed. The gunboat drew off until out of range, but the next morning started ashore, and the captain landed a party of thirty or forty men. They proceeded inland about two miles, where there was a settlement of about forty persons who had been given permission by the commandant at Carabau to cultivate their premises for the benefit of the soldiers. The captain of the gunboat accused them of firing on his boat the day previous, and, notwithstanding their denials, he burned all the huts, firing upon the helpless men and women as they rushed out of the burning buildings. It is said that twenty-four persons were killed in this atrocious manner.

BRIENSBURG.

To the Editor of the Sun.

The little sleepy town of Briensburg does get on a "high" sometimes. The convention that meets here the first day of May promises to be one of the largest days this little village has witnessed for some time. The Populists and Republicans meet on that day to name the next officers of this (Marshall) county. The Republicans will get three or four men of the list.

This little place is noted through the press on account of the mysterious murder of Daisy Sullivan, near here last fall.

Dr. A. H. Freeman, now rides a "bike."

Hon. J. Will Graham has gone to Nashville on business.

Mr. W. H. Fields has moved down to Coy, this county.

We are informed that a few Republicans do not want the party to go in the Briensburg convention, but just a few can't rule the whole party. By taking a hand in the convention, we will elect three or four men, whereas if we put out a full ticket independently it would mean defeat, and equal to endorsing the Democratic ticket.

The airship has not been seen here yet, though it will soon "show up."

THE GRAVEL ORDINANCE.

Receives Its First Passage.—Steam Heating Franchise.

SCHOOL BOARD ASKS A 50 CENT LEVY.

Every councilman was in his seat when Mayor Yeiser rapped to order last night at 7:30 o'clock and each of the twelve beamed back an echo of the Mayor's genial smile. It was evident, figuratively speaking, that the members had rolled up their sleeves and spat upon their alternate hands with a view to transacting bits of business.

Clerk Cole read the minutes of the last meeting.

The following bills were allowed:

Streets, \$10.00
City Clerk, \$1.50
City Engineer, \$1.50
City Auditor, \$1.50
City Treasurer, \$1.50
City Comptroller, \$1.50
City Assessor, \$1.50
City Surveyor, \$1.50
City Engineer, \$1.50
City Auditor, \$1.50

City Assessor, \$1.50
City Surveyor, \$1.50

An ordinance authorizing the city of Paducah to sell under certain conditions its stock in the Paducah and Clark's River, the Paducah and Mayfield and the Paducah and North Ballard gravel roads to the county at prices heretofore named was read.

This being the second reading of the ordinance it was passed by a unanimous vote.

Mr. Farley spoke regarding the ordinance, which he said he was in favor of with one exception. This exception related to the Clark's river road, where emphasis was laid on the matter of "washed stock."

He said the stock in the Clark's river road was not washed stock and advanced arguments to prove his assertion. He said the dividends for twenty years had been used to improve the road, including the building of two expensive bridges. This he thought justified the issuing of more stock.

Mr. Farley stated that 35 cents on the dollar had been offered for the road. He believed that was insufficient.

Accordingly he offered an amendment that an amount not exceeding 40 cents be allowed for the city's share in the road.

Mr. Kankle stated that he was in favor of the amendment.

Mr. Rinkkeff of the committee which formed the schedule of prices for free roads, opposed the amendment stating that the committee had considered 35 cents an ample, in fact a full price.

Mr. Livingston favored the amendment.

Mr. Barnes said that if the council refused to allow the desired five cents on the dollar, additional, it might result in preventing the sale. For that reason he favored Mr. Farley's amendment.

Mr. Williamson desired that the business be settled.

Mr. Barnes spoke again in favor of the amendment.

Mr. Williamson made a few more remarks opposing it. The amendment was put to a vote, ayes 8, noes 2.

Mr. Williamson offered another amendment to the effect that the county be allowed to take any part or all of the city's stock of the gravel roads.

Mr. Farley opposed this amendment. He desired that all the city's stock be turned over at one time and that the city's stock be not disposed of by piece-meal.

Mr. Williamson defended his amendment.

Mr. Carter opposed it.

Mr. Rinkkeff seconded the amendment. Then Mr. Barnes spoke against it.

Mr. Williamson defended his amendment. He wanted one road made free, even if all of them could not be made free at one time.

Mr. Barnes said to free one road and make the people living on some other road pay toll as well as he taxed for freeing a road in another part of the county by which they could obtain no benefit, would encourage lawlessness.

Mr. Kankle opposed the amendment as also did Messrs. Barnes and Livingston.

The amendment was put to a vote: Ayes 3, noes 7. The amendment was lost.

The amended ordinance was given its first passage by the following vote: Ayes 7, noes 3.

Mr. Carter reported that the special committee, of which he was chairman, had been unable to agree with Mrs. Werten for the purchase of property at Ninth and Broadway. A resolution was passed instructing the council Attorney to condemn the property.

A report from Street Inspector Cosby regarding recent work was filed.

Mr. Starks, of the relief committee, read an opinion from the city attorney that the Y. M. C. A. property was exempt from taxation. A motion to exempt the property was passed by a unanimous vote.

Mr. Barnes, of the sewerage committee, stated that field plans and specifications regarding sewerage would be ready for a report Thursday, when a special meeting of the council will be held to pass upon the plans.

Mayor Yeiser stated that Mr. Livingston desired to withdraw from the license committee by exchanging into some other committee. No change was made, however.

tions regarding the granting of the license be read at the next meeting. Carried.

Mr. Kankle, of the fire committee, stated that he had the pleasure of meeting Mr. Johnson, commissioner for the fire underwriters of Kentucky and Tennessee, who is here to re-visit the city and stated that Mr. Johnson had said that Paducah needed no more fire protection. Mr. Johnson had added that Paducah would be rated as a first-class city, thus saving the city between \$10,000 and \$20,000 a year.

NEW BUSINESS.

Mr. Barnes stated that Dr. Prather desired permission to grade and gravel at his own expense half of the alley leading from Clay to Harrison streets between Tenth and Twelfth. Mr. Barnes moved that the citizens owning property on that alley be consulted regarding the grading of the entire alley. Motion regarding right of way through certain property in the South side, with a view to improvement of alleys, carried.

Mr. Starks read a petition from W. H. Riecke asking for a release from taxation for five years on his plant, the People's Ice Factory. Referred to the relief committee, with authority to report.

In regard to the charges brought against Chain Gang Keeper Francis Mr. Starks stated that the committee had decided the evidence offered to sustain charges insufficient. It was moved that all prisoners worked on the streets be securely shackled and that a portable water closet be provided for their use. Concurred in.

Mr. Carter moved that a stove and \$20 in cash be allowed for Mr. Burgess, keeper of the city pest house.

Mr. Barnes opposed the motion, as also did Mr. Leibel.

Mr. Bell favored the motion. Mr. Starks opposed.

Mr. Barnes wanted an investigation. Mr. Livingston moved to refer the matter back to the relief committee. Mr. Williamson seconded this motion.

County Judge Tully, who was present, stated that assistance had been rendered to persons, among whom he believed the name of Mr. Burgess could be found.

Mr. Livingston changed his amendment so as to refer the matter to a special committee. The mayor named Messrs. Rinkkeff, Dipple and Kankle.

Mr. Kankle stated that Dr. Merrill wanted authority to erect an iron livery stable in the rear of his property near Jefferson and Fourth. City Engineer Wilcox stated that he had declined to issue a permit for building the structure because it would be composed of wood, covered with corrugated iron, and being of a wooden frame it stood within the restrictions imposed by the fire limit ordinance. The action of the city engineer was sustained.

Mr. Kankle read a request that action be taken regarding the draining of backwater from Third street near Harrison. Referred to street inspector with power to act.

The street inspector was ordered to inform the Paducah Street Railway that it must attend to the condition of its tracks on the South Side.

Mr. Dipple reported in favor of conveying the Marshall's office with lineolium. Carried.

Motion to buy hose for sprinkling purposes about the city hall, carried.

Mr. Rinkkeff read a communication from Mr. Quigley, attorney for the I. C. railroad, regarding the recently granted river front right-of-way.

Mr. Rinkkeff read a report from City Attorney Hubbard regarding the city's ownership of bonds in the St. Louis and Paducah road, and quoting instances where payment was refused in similar cases because the bonds were voted for illegally. Report filed.

Mr. Kinkhoff stated that a "hose wriggle" was needed for Yeiser Park. Wages for the park custodian were allowed.

Mayor Yeiser made remarks regarding sewerage details and fencing privileges.

Franchise for a heating plant was granted A. E. Einstein.

A franchise for a street railway on Twelfth street, extended, was granted A. E. Einstein in consideration of \$10.

Mayor Yeiser then unfolded the market house ordinance recently passed and made some remarks concerning the need of new benches. The Mayor did not veto it, and Mr. Farley moved that a committee be appointed to look into the matter. Carried.

The Mayor appointed Messrs. Farley, Bell and Barnes as such committee.

Mr. Farley read a paper from the boot-blacks of Paducah asking that the "shiners" be licensed \$5 per annum or more. Referred to the ordinance committee.

Mr. Farley made a statement regarding the public school in Mechanicsburg, and moved that a committee be appointed to confer with the school board regarding much needed work at that building. The motion prevailed and the mayor appointed as the committee Messrs. Farley, Livingston and Dipple.

Mr. Livingston stated that Supt. Harriman, of the I. C. R. R., had stated the willingness of the railroad to assist in defraying the expenses of building a bulkhead against backwater at the rear of the city, provided the city give an estimate regarding the probable cost of such an improvement.

Mr. Barnes stated that Supt. Harlow, of the N. C. & St. L., was also willing to help in the work. Motion was made ordering the city engineer to make estimates and reports. Carried.

A special committee was appointed to look into the matter, as follows: Livingston, Barnes and Williamson.

Mr. Barnes moved to have a committee appointed to look into the matter of enlarging the market house shed. Farley, Barnes and Bell were named as this committee with instructions by the Mayor to act jointly with the public improvement committee.

their regular donation for charitable purposes.

Mayor Yeiser read a communication from the school board asking for a levy of 50 cents, an increase of 15 cents, for the purpose of erecting a new school building.

On motion of Mr. Rinkkeff a committee was appointed to confer with the school board regarding the maintenance of the present levy of 35 cents.

J. D. Hill offered to furnish the city 4000 yards of gravel at sixty-three cents per cubic yard; Pat Harriman, seventy-five cents or eighty cents under certain conditions; Paducah Transfer Company, seventy-five cents. Mr. Hill's bid was withdrawn.

Mr. Barnes said the Lawton Bluff pit, owned by Mr. Harriman, was superior to the gravel beds here. He favored Mr. Harriman's bid.

Mr. Carter stated that Mr. Harriman has some washed gravel for sale at fifty cents per cubic yard, delivered, which Mr. Carter thought could be used in meeting the washed places on Campbell street. Messrs. Rinkkeff, Farley, Kankle, Williamson, Carter and Barnes spoke.

It was moved and seconded that the Paducah Transfer Company be given the contract. Yeas 11; Barnes voted nay.

Mayor Yeiser read a letter from the Paducah Baseball Association requesting that the city council declare a full holiday for city officers on the afternoon of May 5. Mr. Williamson moved favorably. Carried.

The city council was invited to attend the opening ball game and accepted.

The board of health sent a letter, which was read by Mayor Yeiser, regarding sink wells which form of receptacles were first approved of and then condemned and then treated from various standpoints at the same time. The report was received, filed and concurred in.

Mr. Farley moved that an ordinance be drawn regarding the sink wells. Carried. Mr. Farley also moved that a special meeting be called for Wednesday night to discuss the gravel road. Carried.

Mr. Farley moved that the county judge as chairman of the city board of equalization, be requested to state the results of the committee's visit to Frankfort. Mr. Tully made a short speech. The council then adjourned.

BORROWED HORSES.

Mr. Nick Grief Will Make It Hot For Someone.

Mr. Nick Grief was at police headquarters this forenoon complaining that someone has been taking his horses from the "range" where he placed them to put them beyond the reach of backwater, riding them and doing with them as their fancy dictates.

He said that not long since he dreamed that something was wrong with them, and went up to find one or two missing. He subsequently ascertained that the miscreants had made arrangements with the band of cypriotes to trade them off, but the cypriotes backed out. Mr. Grief has learned the names of some of the young men, he says, and is of the opinion that they are destined to get into trouble.
